ABOUT US

P.A. Legal Consultant Co., Ltd. is a Bangkok-based law firm providing counsel, strategy, and solutions to individuals, entrepreneurs, and businesses operating in Thailand and across the region. We combine rigorous legal analysis with commercial judgment, helping clients make confident decisions rather than simply pointing out the risks.

Our name reflects how we work: every engagement begins with clear counsel on where a client stands, moves through a strategy built around their objectives, and ends with a practical solution they can act on.

OUR APPROACH

COUNSEL

We start by listening. Before advising, we take the time to understand the client's business, objectives, and constraints, then explain the legal landscape in plain, direct terms — no jargon, no hedging.

STRATEGY

Every matter is different, so we shape an approach around what the client is actually trying to achieve — balancing legal risk, cost, timeline, and commercial priorities rather than offering one-size-fits-all advice.

SOLUTION

We close the loop with action: drafted documents, negotiated terms, resolved disputes, or a clear path forward. Advice is only useful when it leads somewhere, and we hold ourselves to that standard.

OUR COMMITMENT

We measure our work by outcomes, not billable hours. Clients come to P.A. Legal Consultant for clarity in complex situations and for a team that stays accountable from the first consultation through to resolution.

OUR SERVICES / EXPERTISE

We advise across the areas that matter most to businesses and individuals operating in Thailand, bringing the same combination of counsel, strategy, and solution to every matter regardless of size.

- Corporate and commercial law — company formation, governance, and restructuring
- Contract drafting, review, and negotiation
- Foreign investment and BOI applications
- Mergers, acquisitions, and joint ventures
- Employment and labor law
- Real estate and property transactions
- Regulatory compliance and licensing
- Dispute resolution, litigation, and arbitration
- Intellectual property protection

This list reflects a typical full-service practice — replace or reorder it to match the practice groups your firm intends to launch with.

WHY CLIENTS WORK WITH US

- Bangkok-based team with a direct understanding of Thai law and regulatory practice
- Straightforward, jargon-free communication at every stage of a matter
- Advice built around commercial outcomes, not just legal positions
- Responsive, partner-level attention on every engagement

OUR PARTNERS / TEAM

P.A. Legal Consultant is led by a small team of practitioners who stay directly involved in every matter — clients work with the people advising them, not a rotating cast of juniors.
